

BUSINESS PERSONAL PROPERTY
E-FILING

The Maricopa County Assessor's Office has established a system for E-Filing the Arizona Business Property Statements for Taxpayers with multiple accounts. Our system processes a data file submitted from the Taxpayer's system to update and calculate all of that Taxpayer's locations, virtually eliminating all paper filing while assuring accuracy in the Assessments.

Once established, you will no longer receive individual Arizona Business Property Statements. You will receive a general cover statement as notice of the Due Date for filing and will only need to sign the one statement. Your data file can be submitted to our office in a variety of file formats, (text file, excel worksheet, database file and ASCII files to name a few), with the exception of Apple Computer formats.

To proceed with the E-filing process, please contact our office at (602) 506-6913. An Appraiser will assist you in setting up your E-Filing system.
